9. Russian .....	16
10. Spanish .....	17
Annex. Database of online resources.....	19

## I. Overview

The present deliverable concerns the collection and structuring language resources available online. It is part of Work Package 4, which pertains to the development of a “Teaching Toolkit”, which basically translates as a training pathway, and corresponding tools to assist relocation among seniors.

A comprehensive research has enabled a wealth of resources. For convenience of use it was decided to narrow the Directory to ten languages: English, German, French, Spanish, Italian, Portuguese, Catalan, Greek, Chinese and Russian. The criteria were the languages of the partner countries: Portuguese, Spanish, Catalan, Italian and Greek, and a selection of the most relevant languages in the Europe today: German, French, Chinese and Russian.

The Directory comprises a summary of language tools available, which solely describes the name of the resource, the attainment level and a link to the corresponding website. The breadth of resources available on the Internet comprises:

- Language courses.
- Dictionaries.
- Encyclopaedias.
- Online network of trainers and learners.
- Pronunciation guides.
- Spelling guides.
- Exams.

A complete database was also created, which is annexed to the present document. The database includes further information such as the type of learning media used for language training. The database format is to be used in websites for example.

## II. Language learning resources available online

### 1. Catalan
